

IRTS Radio News Bulletin Sunday 11th July 2010

DX Century Club (DXCC)

The DXCC award, issued by the ARRL, is one of the most sought-after awards for amateur radio activity. The award is available to radio amateurs who can confirm contacts with at least 100 entities. Endorsements are available for individual bands and modes.

There is plenty of interest in this award in EI, with 50 EI amateurs currently participating in the DXCC programme. Have a look at www.irts.ie/dxcc to see the current standing of the EI call signs in the DXCC listings.

Note in particular some remarkable jumps in the rankings over the past month!

Aren News

ComReg has issued a new set of callsigns for use by the Amateur Radio Emergency Network. The callsigns are available for use during training and emergency nets as directed by the National Coordinator. The three callsigns are EI0AC, EI0EC, and EI0NC and supersede any callsigns issued in the past.

Limerick Radio Club

Limerick Radio Club's 70cm repeater has been taken off site for updating & maintenance and it is hoped to have it back on air soon

Increased Power for Contests

The Society is continuing to pursue with ComReg the question of securing increased power for the duration of contests on a list of international HF and VHF contests still to be finalised. In order to take this matter further, ComReg wish to have submitted a list of licensed amateurs who would be interested in getting permission to operate with increased power for the contests concerned. Anyone who wishes to have their name included on this list should e mail the contest manager Thos Caffrey EI2JD at `contestmanager /at/ irts.ie` or to `thoscaffrey /at/ hotmail.com`

Major Castles on the Air activation in Northern Ireland

On Friday 16th July 2010 callsign GN4KPT/P will be active from Stormont Castle and Parliament Buildings the home of the NI Assembly in Belfast.

www.searg.com

Bush valley Amateur Radio Club special event

Bush valley Amateur Radio Club will be on the air on July 24th from its home village of Dervock in County Antrim, Northern Ireland.

They will be running a Special Event Station from the Village Fun Day, commemorating the birth of Kennedy Kane McArthur, a son of the village, who immigrated to South Africa, competed in the Olympics of 1912 at Stockholm, and won the marathon.

The club will be using the special event callsign GB0KKM for the day. A special QSL card will be available.

OSCAR News archive CD

OSCAR News is the official journal of the Amateur Radio satellite organization AMSAT-UK, all 47 issues published from 2000-2009 are now available on CD.

Containing more than 2000 pages of information about amateur satellites ranging from homebrew electronics projects to scientific papers, this archive offers an intriguing insight into the development of amateur radio satellites during a fast moving decade.

More details can be found on the Amsat UK website, including a link for purchasing the CD

FUNCube Frequencies Announced

The AMSAT-UK FUNCube CubeSat project is intended for launch into a Low Earth Orbit (LEO). In addition to the satellite, the project includes the development of

simple receivers and display software for use in schools.

FUNCube is designed to carry a 70cm to 2m linear transponder for SSB/CW communications along with a beacon carrying telemetry and data for educational demonstrations from space. It is expected to be completed by Autumn 2010. A submission for frequencies was made to the IARU Amateur Satellite Frequency Coordination panel who has announced these coordinated frequencies for FUNCube.

Inverting linear transponder: Uplink 435.080 – 435.060 MHz Downlink 145.960 – 145.980 MHz Beacon: 145.955 MHz CW and BPSK

Further information on this exciting UK Amateur satellite project can be found on the FUNCube website.
